

PASTURE PIPE FOR SALE

**Providing clean water to our livestock
is imperative to livestock health.**

Above-ground water systems are a popular tool to deliver clean water to pastures. The Hamlin Conservation District handles 1" High Density Polyethylene black pipe, rated at 200 PSI. This tough material can withstand being walked over by cattle or driven over by lighter vehicles.

These pipeline rolls are sold in 500' or 1000' rolls and are readily available.

**Please stop in our office at
301 Marsh St., Hayti, SD
or call 605-783-3642 x4
to speak to the
District Manager.**
