**Oak, Northern Red**

**Willow, Niobe Weeping**

# Quaking Aspen

The small leaves of this native tree tremble in the slightest breeze for a beautiful effect. It is indifferent to soil conditions, and can be found in moist, shallow, rocky, or clay soils. The bark is an attractive greenish white.

Height: 60-80' Spread: 30'

# **Renaissance Oasis Birch**

**The most drought-tolerant birch in the Renaissance Series. The juvenile bark is an outstanding red-bronze, turning white with attractive exfoliation. Dense, broad pyramidal form. Dark green leaves turn yellow in fall.**

**Height: 50-60' Spread: 30-40**

# Triumph Elm

**The Triumph Elm has an upright habit with strong branching, lustrous dark green foliage and excellent disease and pest resistance. Fall Foliage is yellow.**

**Height: 60' Spread: 35-40'**

# **Ivory Silk Japanese Tree Lilac**

**These are a most attractive, small flowering tree with cherry-like bark; They bear large creamy white flower clusters in early July. And will perform best in full sun. Compact and oval shaped, these can grow to 25' and spread to 15'.**

# Redmond Linden

**A valuable tree for street planting, 'Redmond' has the largest leaves of the lindens. The dense foliage is glossy green with bright yellow autumn color.**

**Height; 40-60' Spread: 25-30'**

# Fall Fiesta

## Sugar Maple

**Fall Fiesta Sugar Maple is has branching that is full and symmetrical. Leathery, glossy, deep green leaves are resistant to leaf tatter and leafhopper damage. A rapid grower, easy to transplant and also resistant to sun scald and frost cracks. Outstanding fall color, shows far more oranges and reds than other sugar maples. Prefers a moist yet well-drained soil. Height: 50-75' Spread: 50'**

# Sienna Glen Maple

**This is a fast growing, hardy maple with uniform branching and a pyramidal form.**

**Superior to Autumn Blaze® maple in withstanding strong winds. Is considered a very good substitute for ash varieties. Beautiful fall colors! Turns yellow, orange and red in the fall. Height: 60' Spread: 40'**

# **Tatarian Maple (Hot Wings)**

**The perfect maple when you don't have room for a 50-100' tree. The habit is graceful, upright and spreading. The little yellow flowers are followed by bright red samaras, hence the name Hot Wings®. The dark green foliage turns yellow to red giving the fall color expected from a maple. Height: 20-25' Spread: 18-20'**

# Heritage Oak

**A cross between an English Oak and a Bur Oak. This oak has glossy, dark green, tatter and mildew resistant foliage. A beautiful specimen tree for the front lawn, this is a truly vigorous cultivar.**

**Height: 60-80' Spread: 40-50'**

# Northern Pin Oak

**This native tree is well adapted to sandy, acid soils, but will tolerate heavier soils and more alkaline conditions than Pin oak. It is great for use as a specimen tree in lawn or boulevard plantings. The red fall color can be spectacular.**

- **Height: 60' Spread: 45'**

# Northern Red Oak

**The Northern Red Oak is the fastest growing oak and one of the easiest to transplant, this tree is great for street use or as a landscape tree. The foliage is dense and lustrous and leaves hang on the tree into winter.**

**Height: 60-80' Spread: 50'**

# Niobe Weeping Willow

**This fast growing golden barked willow has a wide spreading canopy and long, drooping branches. Height: 50' Spread: 50'.**
